

AFT-3 Vibratory Tub Finisher

*Designed for Portability and Versatility
in Entry-Level Surface Finishing*

Performance Built In. Precision Delivered.

The AFT-3 Vibratory Tub Finisher integrates durability and flexibility to support a wide range of finishing applications, optimized for use with both ceramic and plastic media.

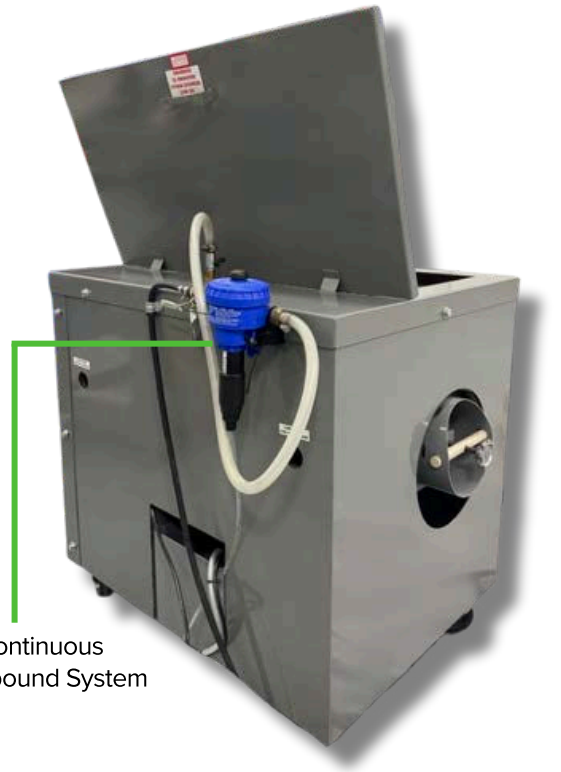

KEY FEATURES

- 3.3 Cubic Foot Capacity
- Rugged, Industrial-Grade Construction
- Rectangular Tub Design
- Process Timer
- 10 Gallon Settling Tank with Recirculation Pump
- Compatible with a Broad Range of Media & Compounds

Tailored Performance for Demanding Finishing Environments.

Whether you're running a high-volume production floor or a simple deburring or smoothing application, the AFT-3 delivers dependable results with features that support process consistency and operational efficiency. Built to handle a wide range of finishing tasks, this machine can be configured to match your specific part profiles and workflow requirements—including an optional Continuous Flow Compound System for cleaner operation, improved finish quality, extended media life, and reduced maintenance.

Optional Continuous Flow Compound System

Specification	Details
Working Capacity	3.3 Cubic Feet
Tub Dimensions (L x W x H)	29" x 15" x 15"
Tub Lining	80 Durometer, 5/8" Thick
Load Limit	500 lbs
Motor Power	1 HP
Voltage	110 V
Speed Control	Variable Frequency Drive with Built in Timer
Recirculation System	10-Gallon Weir Tank with Pump
Noise Reduction	Heavy-Duty Lid
Construction	Heavy-Duty Steel Frame with Portable Casters

IDEAL APPLICATIONS

- Precision Edge Radiusing for Complex Geometries
- Cleaning and Descaling Heavy Components
- Surface Smoothing Prior to Coating or Painting
- Finishing 3D Printed or Cast Parts with Bulkier Profiles
- Consistent Deburring and Finishing of Parts in All Industries

Why Choose SurfacePrep?

- ✓ **Full Service Support**- Installation, training & preventative maintenance
- ✓ **Quick Access to Media & Spare Parts** – Stocked locally across 50+ facilities
- ✓ **In-House Process Testing** – R&D labs to develop your ideal finish
- ✓ **Reliable Technical Expertise** – Backed by decades of finishing experience

Let's Start a Conversation
